MEMORANDUM FOR SERVICE DOCTRINE DIRECTORATES

FROM: ALSSA Director
114 Andrews Street
Langley Air Force Base, VA 23665

SUBJECT: ALSSA Campaign Plan 2026-2027

1. The Air Land Sea Space Application Center provides joint solutions for tactical warfighters by filling gaps in existing tactics, techniques, and procedures (TTPs) to improve near-term interoperability and ensure victory in the next battle.
2. Outreach, warfighter engagement, and the production of multi-service tactics, techniques, and procedures (MTTPs) remain focus areas of ALSSA daily operations.
3. The ALSSA catalog of 29 MTTP are prioritized with 10 foundational MTTPs supporting large-scale combat operations and Joint Warfighting Concept 3.0, alongside routine MTTP supporting multiple other types of operations. These MTTP are all scheduled for review based on a 1 to 5 year cycle and continually monitored for major changes that could require out-of-cycle revisions. The CY2026-2027 Campaign Plan for ALSSA is attached.
